## Why Scoochie Pet Products?

Scoochie Pet Products was founded in 2014 by Gary Jacobs, from New York, with over 20 years' experience in designing and manufacturing dog and cat toys. His partner, **Sebastian Sandholm**, has close to 20 years' experience in the pet industry, being one of the largest pet distributors in Scandinavia, as well as owner of several manufacturing **facilities** throughout the world.

Scoochie Pet Products corporate offices, warehouse and showroom are located in Tobyhanna, PA, in the heart of the Poconos. Here we occupy 115,000 square feet and have over 15 employees.

Why Scoochie over other brands? Scoochie is an innovator, not a "me too" type of company. We design all of our products with durability and value in mind. We consider ourselves a "pet shop" brand, meaning we don't just try and make our products cheap. We want the end consumer to get a value for their buck and come back looking for more Scoochie products.

We do not sell our toys or stain removers directly to Amazon or other discount on line retailers; therefore, you can retain your margin. No customer will go into your store, scan our products and find them for half the price on line. Yes, we have toys, but we do not compete on the commodity level. We feel our toys are unique, and therefore you can comfortably make your full margin on our products.

We feel our Wiz B Gone Organic pet stain remover is the most efficacious product on the market, and will become one of the number one brands in the next few years, simply because it really works.

Scoochie is a privately held company that is growing. Get in early and grow with us!

Gary Jacobs, President
